Group contributions and traceability

AgriSoko Pocket G13 | INES Ruhengeri | 23 October 2026

Repository: https://github.com/nzerneste250/agrisoko-pocket-g13

Release: https://github.com/nzerneste250/agrisoko-pocket-g13/releases/tag/v1.0.0

Confirmed group

NZAYISENGA Erneste (25/27341), INEZA Benitha, MANZI Cedrick, KIRENGA Alain Thierry.

Project leadership and source publication occurred using nzerneste250. Confirmed first source commit: ccc8986 on main. A GitHub v1.0.0 release with the Android APK is published.

Technical work available for review

Repository contains a FastAPI service, deterministic TF-IDF matching, member dataset, automated tests, Expo/TypeScript mobile application, local directory caching and offline fallback, and EAS APK build configuration.

The current record documents Cline and Codex assistance. Repository publication does not establish which member individually implemented each module. Proposed assignments in docs/COLLABORATION_PLAN.md are plans rather than verified individual contributions.

Individual contribution evidence status

NZAYISENGA Erneste: group lead and authenticated GitHub publication, first commit ccc8986. Further personally implemented features and review evidence have not been independently established.

INEZA Benitha: individual issue, substantial PR and peer review not supplied.

MANZI Cedrick: individual issue, substantial PR and peer review not supplied.

KIRENGA Alain Thierry: individual issue, substantial PR and peer review not supplied.

Assignment traceability requirements

Official rubric requires each member to have an owned issue, named feature branch, substantial PR, meaningful peer review, linked merged work, relevant test and demonstration timestamp. These items remain unverified.

The official assignment also requires member signatures on CONTRIBUTIONS.pdf. No signature fields or placeholder signature areas are included in this copy at the user’s request; the required signatures have not been obtained, so this document is not a signed contribution record.
